HOUSE REPUBLICAN CONFERENCE

LEADERSHIP & CHAIRMAN REPORTS

House Republicans continue to focus on solutions that will foster economic growth and create jobs for all Americans.

It's not fair that the status quo in Washington keeps making life difficult for hardworking taxpayers with outdated laws and regulations, a top-down energy plan, higher health care costs.

We have a plan that lays the groundwork for a more secure future for all Americans with new jobs, a stronger economy, and expanded opportunities for everyone - without expanding government.
